Re: Metro Environmental, Inc.

To whom it may concern:

As engineering consultants, our company has been involved with Metro Environmental, Inc. on many building design and construction projects over the past several years. These projects have resulted in smooth construction and many satisfied customers. Additionally, many of the customers have chosen Metro and their building automation system offering as their standard for continued service, new construction, and building renovation projects. The entire Metro team has always been courteous and they conduct business in a professional manner.

Sincerely,

PETER BASSO ASSOCIATES, INC.
